- 13-14 September 2013 Honolulu (220 participants)
- 7-8 August 2015 Honolulu (78 participants)
- 14-15 December 2018 (110 participants)

#### Plans of the branch for the future

The Hawaii Branch of the Ian Donald Family has ambitious plans to be a hub for excellence in ultrasound education, research and clinical application of OB/GYN ultrasound in the Pacific region. Hawaii would like to take advantage of its unique position as the cross roads between East and West and serve as a place where advances in medical ultrasound would connect physicians and other health care providers from the United States, the Pacific and Asian nations for betterment of women's health. It is our hope that Hawaii's rich history, unspoiled natural beauty, high quality care in OB/GYN and spirit of Aloha would blend the best of what the Ian Donald School can offer.
